- Primary role - Front & Back-end Developer, UI/UX design, CSS, and handlebars

Built with Javascript, HTML, CSS, API, MySQL, Tailwind, Express.js, Handlebars

## Experience

**June 2023 - December 2023**

University of Denver | Denver, Colorado

### Student

Designed weekly applications based on material discussed in course. Worked with classmates to wireframe and produce functional applications using HTML, CSS, Javascript, MySQL, sequelize, Bootstrap, Restful APIs, React, MongoDB, etc.

**February 2023 - Present**

Kickoff | Remote

### Personal Trainer

Communicate with prospective and current clients through zoom to discuss client requirements, needs, and goals. Wireframe and create personalized fitness regimens to support assessment. Communicate with clients daily to ensure commitment and progression, provide fitness guidance, and make changes based on client feedback.

**September 2020 - April 2023**

Advanced Wellness Centre | Richmond, VA

### Exercise Therapist, Head Personal Trainer

Designed and implemented an exercise therapy program for chiropractic patients. Oversaw exercise therapy program instruction and certification of employees. Monitored standard of exercise therapy care and worked with team members to assess and provide efficient care to chiropractic patients. Created and trained fitness training clients through workout programs.
